HIGHLIGHTS

Growth of Union Membership (Table 1)

1. Total membership in labour organizations in Alberta in 1984 was 298,070 representing 31.9 percent of the non-agricultural paid labour force compared to 32.3 percent in 1983.

Membership by Industry (Table 2)

2. The highest concentration of union membership is in public administration where almost 85 percent of the workforce are members of unions. The largest group of union members (32.4 percent of all Alberta union members) is found in the service industry which includes education and health care services. (Note: Caution should be exercised in using union membership concentration figures especially with regard to the construction industry. For details see notes on page ix and page 2.)

3. Agriculture and finance are the only industries that have no union representation.

Union Affiliation (Table 3)

4. About 136,000 union members (45.7% of all Alberta union members) belong to unions affiliated with the Canadian Labour Congress (CLC). Of these, 41,239 are also affiliated with the American Federation of Labour/Congress of Industrial Organizations (AFL/CIO).

5. The new Canadian Federation of Labour (CFL) holds the affiliation of 14.1 percent of Alberta union members.

6. Close to 90,000 members (32.9%) belong to unions unaffiliated with any national or international body. Of these, 7,479 members belong to unaffiliated **international** unions.

Legislation (Table 4)

7. Almost 204,000 (68.4%) of Alberta union members come under the jurisdiction of the **Labour Relations Act** while 53,151 (17.8%) come under the **Public Service Employee Relations Act.** Federal legislation provides the legal framework for 10.9 percent of Alberta union members.

Public/Private Sector (Table 5)

8. Thirty-four (34) percent of union membership in Alberta is in the **private** sector and 66 percent is in the **public** sector.

9. In the private sector 12.3 percent of union membership is female, while in the public sector 52.2 percent of union membership is female.

10. Only 10.9 percent of all female union members are employed in the **private** sector while 89.1 percent are employed in the **public** sector.

Membership by Sex (Table 6)

11. Females constitute 39 percent of all union membership in Alberta while union membership is held by 28 percent of Alberta's non-agriculture paid female workers. By comparison, 35 percent of non-agricultural paid male workers are union members.

Data Sources (Table 7)

12. Twelve (12) percent of Alberta union membership, represented by 60 percent of all labour organizations, was surveyed by Alberta Labour. Statistics Canada's CALURA survey captured 88 percent of the membership but only 40 percent of labour organizations.

Membership over 3000 (Table 8)

13. In 1984 there were 17 unions in Alberta with more than 3000 members. In total they represented 209,630 union members or 70.3% of Alberta membership. The Sheet Metal Workers and Iron Workers unions' memberships fell to below 3,000 since 1983.

14. The largest union in Alberta is the Alberta Union of Provincial Employees (AUPE) with 49,071 members.

15. Of the 17 largest unions in Alberta seven reported an increase in membership since 1983 while ten reported a decline.

16. The largest increase in membership (24.6 percent) was reported by the Health Science Association of Alberta. All other reported membership increases among the larger unions was 3 percent or less.

17. The largest membership losses among large unions were reported by the Labourer's International Union of North America (24%), United Nurses of Alberta (20.1%) and the United Brotherhood of Carpenters and Joiners of America (19.1%).

Female Membership over 1000 (Table 9)

18. In 1984, 87.0 percent of female union membership belonged to the fifteen unions which each had more than 1000 female members.

19. The unions with the largest number of female members are AUPE and the Alberta Teachers Association (ATA) with 28,420 and 22,824 female members respectively.

20. The highest concentration of female membership is found in the health care unions. Female membership is over 89 percent in each of the following unions: United Nurses of Alberta (UNA); Alberta Association of Registered Nursing Assistants (AARNA); Health Sciences Association of Alberta (HSAA); the University of Alberta Hospital Staff Nurses Association; and the Calgary School Support Staff Association.

FOREWORD

Membership in Labour Organizations in Alberta is an annual publication providing membership and other descriptive information on unions in Alberta. For purposes of this report any organization which engages in collective bargaining with the object of concluding a collective agreement is included. This includes international, national and provincial unions as well as strictly local employee associations and academic staff associations.

Information in this publication combines the results of two surveys: the Statistics Canada Corporations and Labour Unions Returns Act (CALURA) survey and a supplementary survey conducted by Alberta Labour. The surveys requested membership figures as of December 31, 1983 or January 1, 1984 so that the data in this report represents membership at the beginning of 1984.

In comparing union membership figures from year to year (Table 1) it is important to note that in two years, 1980 and 1983, a substantial jump in membership is recorded. In 1980, for the first time, Alberta Labour conducted a supplementary survey of employee associations which significantly contributed to the noted increase; in 1983 a concerted effort was made to capture all of the organizations previously overlooked. As a result, another jump in membership was recorded but it is solely due to improved survey coverage.

In collecting information for the 1984 (i.e. this) publication, a few instances were uncovered where membership was substantially understated in 1983. As a consequence, 1983 figures have been revised upward to include the corrections and more accurately reflect actual memberships in 1983 while providing a better direct comparison with the 1984 numbers.

The **major change** incorporated into this report is the addition in Table 10 of the name, mailing address and telephone number of a contact person for each of the surveyed labour organizations. In cases where no one contact person could be identified for Alberta the name of a regional or national representative for the union is listed.

Our sincere appreciation is extended to all of the organizations and individuals who co-operated by supplying requested information either through the completion of survey forms or by responding to telephone inquiries.

While every effort has been made to obtain comprehensive information, it is possible that some organizations have been overlooked and are excluded or misrepresented. Comments, corrections and other observations about any aspect of this publication are welcomed and may be forwarded to the undersigned or Nick Frans, Manager, Statistics and Information Services at (403) 427-8531.

DATA SOURCES AND METHODOLOGY

Source of Data

The membership data used as a basis for this report is derived from two surveys. Statistics Canada under authority of the Corporations and Labour Unions Returns Act (CALURA) conducts an annual survey of all labour organizations with membership of more than 100. A survey by Alberta Labour covers all other labour organizations in Alberta. Table 7 provides specific details for the current year in terms of the memberships and organizations surveyed by each.

Comparisons with Previous Years

Since 1982 tables and graphs have been included in this report which explore certain characteristics of Alberta union membership such as industry concentration, affiliation and covering legislation. The unit on which this breakdown was based in 1982 is the union local. In 1983 the unit of measurement was changed to the bargaining unit which provides much more accurate disaggregations. Therefore comparisons of disaggregate union membership characteristics should be confined to data contained in the publications after 1982.

Notes on Individual Tables

Table 1 - Growth of Union Membership and Non-Agricultural Paid Workers
In 1980 Alberta Labour first carried out a survey supplementing Statistics Canada's CALURA survey. This contributed significantly to the increase in membership registered from 1979 to 1980. Similarly the indicated increase from 1982 to 1983 is attributable totally to improved survey coverage. Starting in 1983, membership figures should be directly comparable to those of subsequent years.

"Non-agricultural paid workers" is a statistic estimated by Statistics Canada based on the Labour Force Survey. The figures used from 1977 to 1983 were all revised in January 1984 based on 1981 Census data. Thus, these figures are not directly comparable to any published prior to 1984.

Table 2 - Union Membership as a Proportion of Paid Workers by Industry
Two factors can be identified which have potential for some misinterpretation of the data. 1. Union membership is not necessarily to be equated with "employed union member". Especially in the construction industry in recent years, union membership figures greatly exceed those actually employed; thus, "membership as a % of total paid workers", particularly in this industry, must be used with caution. 2. A similar caution applies to the "Service" industry. Union membership, particularly in education, included members who are retired or for other reasons not included in the paid labour force. This industry includes, and union membership is primarily composed of, those employed in the education and health care field. Apart from these two sectors, where membership as a proportion of total employment rivals that of public administration, union membership in the service industry is very low.

Table 3 - Union Membership by Affiliation
Affiliation is not ascertained through survey information but is generally obtained from the annual Labour Canada publication **Canada Labour Codes.**

Table 4 - Union Membership by Legislation
Beginning in 1984 firefighters are covered by the **Labour Relations Act** while police officers are covered by the **Police Officers Labour Relations Act.** Prior to this police and firefighters were covered by the same legislation.

Table 5 - Union Membership by Public/Private Sector
"Public sector" is here defined to include the following: urban transit, broadcasting, telephones and telegraph, utilities, post office, education services, hospitals and health care, welfare organizations, and all levels of government.

Table 10 - Labour Organizations in Alberta
This table lists all of the unions and associations surveyed for this report alphabetically **by key word.** Affiliation is indicated in brackets after each name. Beginning in 1984 the name, address and telephone number of a contact person for each organization is included. To facilitate comparisons the previous year's membership data (revised where appropriate) are also given.

UNION ORGANIZATIONAL CHANGES, 1983 TO 1984

Additions to the Survey

The following organizations, with membership in brackets, were added to the survey in 1984:

Amalgamated Beverage Employees Association (29)
Canadian Association of Passenger Agents (131)
Grant MacEwan Community College Faculty Association (158)
Police Association, Barrhead (5)
Sherwood Park Catholic Transportation Association (23)
UNA Employment Relations Officers Union (7)
Westerra Academic Staff Association (28)

Deletion from Survey

The following organizations were surveyed in 1983 but were no longer functional 1984 and therefore excluded:

Du-Al Blocks Employees Association
Early Childhood Services Staff Association
Muttart Edmonton Builders Supplies Employees Welfare Association
O.K. Construction Employees Association

Mergers

The **Cement, Lime and Gypsum Workers' International Union** has merged with, and is a division of, the **International Brotherhood of Boilermakers, Iron Ship Builders, Blacksmiths, Forgers and Helpers.**

The **Communications Workers of Canada** and **International Union of Electrical Radio and Machine Workers (I.U.E.)** merged to form the **Communications, Electronic, Electrical, Technical and Salaried Workers of Canada.**

The **Graphic Arts International Union** and **International Printing and Graphic Communications Union** merged to form the **Graphic Communications International Union.**

Name Changes

Alliance of Canadian Cinema, Television and Radio Artists is the new name for **Association of Canadian Television and Radio Artists.**

Canadian Division Brotherhood Railway Carmen of the United States and Canada is the new name of the **Brotherhood Railway Carmen of the United States and Canada.**

Other Notes

In gathering membership information for 1984 it was found that through a definitional misunderstanding the 1983 membership figure was substantially understated for two major labour organizations. As a consequence, the 1983 membership figures have been revised from 6,129 to 9,040 for the **United Association of Journeyman and Apprentices of the Plumbing and Pipe Fitting Industry of the United States and Canada,** and from 26,348 to 37,402 for the **Alberta Teachers' Association.** Total membership figures as reported in Table 1 also reflect this correction.

* This figure indicates that for the 15 unions with the largest female membership the proportion of female members is 56.5%. Another way of looking at this number is that 87.0% $\left(\frac{100,103}{115,012} \times 100\right)$ of female union members in Alberta belong to these 15 unions.
